GitHub: /Rahma6026

Career Objective:

Motivated software engineering graduate with a passion for problem-solving, web development, and data-driven projects. Experienced in team-based work and eager to contribute and grow in a dynamic industry environment.

Academic Qualification

Bachelor of Computer Science and Engineering (CSE) 2025	Major : Software CGPA : 3.19 out of 4.0 Institution : East West University (EWU) Campus : Dhaka
Higher Secondary Certificate (HSC) 2019	Background : Science GPA : 4.08 out of 5 Institution : Mirpur Girls' Ideal Laboratory Institute Board : Dhaka
Secondary School Certificate (SSC) 2017	Background : Science GPA : 4.73 out of 5 Institution : A.K. High School & College Board : Dhaka
Junior School Certificate(JSC) 2014	Background : Science GPA : 4.83 out of 5 Institution : Comilla Modern High School Board : Comilla

Development Skills

Languages: PHP, JS, HTML, CSS, Python, Java, C/C++, Python

Data Management: MySQL, Oracle

Tools: Git, GitHub, Figma, Canva

Achievement and Publication

Mahbub, Rahma. 2024. *ML-Based Bank Churn Analysis for Improved Customer Retention*. Presented at the International Conference on Data Mining and Information Security (ICDMIS 2024), October 7–8.

Experiences:

Software Developer

Linexis IT

Shezan Point (Level 4), 2 Indira Road, Farmgate, Dhaka 1215, Bangladesh

October 2025 – Present

- ✍️ Contributing to web application development and system optimization
- ✍️ Developing, maintaining, and enhancing scalable web solutions
- ✍️ Collaborating with cross-functional teams to deliver client-focused digital products

Junior Web Developer (Remote)

Reminder BD Ltd. | London, UK

June 2025 – September 2025

- ✍️ Worked remotely on web development projects for international clients
- ✍️ Assisted in frontend and backend development, bug fixing, and performance optimization
- ✍️ Gained experience in remote collaboration, version control, and agile workflows

Report & Project work:

• HealthInsight:

- ✍️ This is a multi-functional web platform developed using XAMPP and PHP, designed to offer intelligent disease prediction by integrating Python-trained machine learning models through Flask. The application follows the MVC architecture and focuses on delivering a secure, seamless user experience.
- ✍️ As a software developer, I was responsible for designing key parts of the system architecture (25%), implementing selected core features (5%), and leading the integration of machine learning models via Flask (70%). I also played a significant role in planning the platform's design and contributed to building secure payment gateways and responsive user interfaces
- ✍️ Technologies Used: PHP, XAMPP, Flask (Python), CSS, JavaScript, MVC Architecture, MySQL. Github: [HealthInsight](#)

• HealthInsight_Bed_Booking:

- ✍️ This is a web-based application designed to simplify the hospital bed reservation process for patients. The platform allows users to search for hospitals, view available beds, compare pricing, and book beds easily through a user-friendly interface. It aims to improve accessibility and convenience for patients in need of urgent care.
- ✍️ As a software developer, I was responsible for approximately 50% of the design and development of the website's frontend, with a strong focus on responsive design and intuitive user interaction to enhance the patient experience across devices.
- ✍️ Technologies Used: HTML, CSS, JavaScript. Visit: [HealthInsight Bed Booking](#)

• HouseRentalManagementSystem:

- ✍️ We developed 21 Java classes and tested them using JUnit 4, ensuring effective and reliable testing.
- ✍️ Technologies Used: NetBeans, Eclipse. Github: [HouseRental Management System](#)

- **JoblagbeBD:**

- ✍ A web-based platform designed to help users find jobs based on their preferences and build professional CVs. The system connects job seekers and employers through a streamlined, user-friendly interface.
- ✍ As a frontend developer on this project, I spent approximately 20% of my time analyzing requirements and planning features, 10% implementing interface components, and another 10% contributing to the codebase under mentorship. The role allowed me to gain hands-on experience with MVC architecture, collaborate effectively in a team, and follow real-world development practices.
- ✍ Technologies Used: PHP, Laravel, XAMPP, HTML, CSS, JavaScript, Git, VS Code. Github: [Joblagbebd](#)

Language Proficiency:

- Bengali: Mother tongue.
- English: Excellent in speaking, reading, writing and listening.

Interpersonal Skill

- Energetic, Dedicated and Dynamic individual with creativity.
- Skilled in complex problem-solving and critical thinking
- Strong decision-making and analytical abilities
- Effective project management and team coordination skills
- Creative and innovative approach to design and development
- Service-oriented mindset with a focus on user satisfaction
- Adaptable, collaborative, and goal-driven
- Good in research paper, project proposal & report writing, communication, presentation, analytical skills and also good leadership proficiency

Personal Information Details:

Permanent Address : 364/1 west Shewrapara, Dhaka-1216

Date of Birth : February 10, 2001.

Nationality : Bangladeshi by birth.

Marital Status : Single.

Religion : Islam

Personal Interests Include:

Reading online articles; watching documentaries and movies of different cultures; Photography; interest in sports, travelling, Coin collection; like to listen to music.
